Specialty Case Management

WE PUT OUR REPUTATION ON THE LINE

A nationwide benchmark for personalized managed health care excellence, our nurse specialists strive to ensure that the complexities of each situation are cared for with skill.

Our professionals, with experience in at least one major clinical specialty, understand all the ramifications of a patient's condition and treatment. The result? Accurate needs assessment, appropriate care and cost conservation techniques—all within a timely manner.

EACH INDIVIDUAL IS SPECIAL, EVERY CASE UNIQUE

At Hines & Associates, Inc., it has been this way for over 30 years.

Our success in high-risk health care is based on outstanding clinical expertise. Programs are comprehensive and innovative. From oncology and organ transplant to BABESM Critical Care and behavioral health—Hines' Specialty Case Management positively impacts your high dollar concerns.

YOUR CONCERNS ARE OUR SPECIALTY

Transplant Program / Cases are assigned early with no change in nurse specialists to the critical pre-transplant period.

Oncology / A family approach to case management during what can be a difficult and emotional time.

BABESM Critical Care Neonatal Case Management
Comprehensive monitoring for critical care/neonatal infants from onset through post hospital discharge.

Dialysis Management Program / With our renal/dialysis nurses averaging over 10 years of clinical experience, they are dedicated to keeping abreast of medical breakthroughs, research and potential alternative funding sources.

Behavioral Health / The complexities of today's health care system are more easily navigated with the aid of our behavioral health specialty case managers.
